Education

Faculty of Engineering and Technology, Jamia Millia Islamia

November 2020 - June 2024

Bachelor of Technology in Electrical Engineering (SPI of 9.47)

New Delhi, India

Experience

PRIXLED

September 2022 – November 2022

Frontend Development Engineer Intern

- Worked on front-end technologies. Designed developed various web-pages for their beta web-application .Integrated the backend API's inside these newly built web-pages.
- Implemented the image cropping functionality from scratch in the edit profile page. Completely overhauled the design of preview Artilog page by implementing the newly made designs. Made the user experience more smooth
- Managed the migration of the old redux code to newly implemented redux toolkit. Reduced the development time by almost 40%.
- Created more than 100 redux toolkit reducers and thunks for improving user experience. Fixed at least 30% bugs before beta deployment.

Projects

FIFA points table simulator | *Next Js, Tailwind Css, MongoDB , Redux Toolkit* | [Clickable Link](#)

4

- A simple points table simulation app, built on top of Next js , using the frameworks like Tailwind Css and using redux toolkit for state management. Mongo DB used as the database
- A round robin tournament can't be played by more than 20 players using the fifa's inbuilt tournament modes, so this app allow more than 20 players to play the tournament and provides the functionalities of saving the scores, updation of points table and premade fixtures.

Yang Form | *React Js, Tailwind Css, Node Js, SQL, Express* | [Clickable Link](#)

4

- Full Stack web app made for data collection purposes.It enables it's users to make forms for surveying and also shows the graphical stats.
- Consists of all the CRUD functionalities and alongside that allows users to embed the form in different websites using API key.
- Node Js ,Express used in back-end alongside CockroachDB as the SQL database. React Js , Redux Toolkit with Tailwind Css used in the frontend.

Portfolio Website | *React Js, Tailwind Css* | [Clickable Link](#)

4

- The portfolio website is a frontend only web app which is made on top of React Js and Tailwind CSS and allows the users to review my past accomplishments ,projects and development skills.

Achievements

- Secured global rank of under **1000** in Codechef's contest multiple times.
- Solved more than 300+ problems across platforms.
